

INDIANS ARE COMING Band of Sioux Indians with Ponca Bill

The general public has not had the pleasure of viewing and visiting with the genuine Sioux Indian for over ten years. The passing of Buffalo Bill, took off the road the wild west show and with it the exhibiting of Indians. During this time, however, the Rodeos and wild west contests throughout the country have grown to terrific proportions and are now regarded as the most profitable of all the amusements. At Madison Square Garden last year the Rodeo receipts were close to a million dollars. New York went crazy over the wild west and at that there were no Indians present. Ponca Bill is bringing his cowboys and cowgirls together with the Indians to your very door and is going to present one of the most daring performances you have ever witnessed.

Most of the Indians in the village that Ponca Bill carries with him are from the Sioux reservation altho some come from the Pawnees. These Indians dress in their native garb and are quartered in the menagerie tent of the big circus where you can view them and even visit with them during the hour before the circus perform-
