A SUDDEN DEATH-

The community was started Saturday morning by the sudden death of Mrs. May Anderson. On Wednesday she had assisted in carrying the mail to and from the depot. She had a cold at that time and it grew worse until Friday arrived when she showed evidence of growing worse and when the doctor arrived she was in the last stages of pneumonia and died in the early morning.

Blanche May Mason was born January 30, 1873 at Milford, Ohio and departed this life on January 9, 1932, at her home in Table Rock at the age of 58 years, 11 months and 22 days.

She was married to Albert Stanley and to this union two children were born, one dying in infancy and one daughter at the age of 18. She was married to Victor F. Anderson who is left to mourn her loss. Her father, mother, brother and sister have preceded her in death.

She came to Nebraska in 1912 and lived here since. She was a member of the W.R.C. and home

missionary society of Table Rock. Besides her husband she is survived by two brother-in-laws and a sister-in-law. Her death was a shock to everyone as she had been ill only about 24 hours.

Funeral services were held at the home at 1:30 Monday by Rev. Caldwell and burial was in the Table Rock cemetery.

After the death of Mr. Anderson's father, she came with her husband to his old home near Lewiston in 1912 where they made a home for his single brother, Gardy, and since that time she has been mother to him. She loved little children and in every locality where she lived she had a number of neighbor children who learned to call her Aunt May because of her love and kindness to them. She took great pleasure in doing good to others and was a great lover of flowers and animals, especially horses and dogs.

NOTE: Her brother-in-law Gardy Anderson #55655521 is buried next to her.

In May 2023 we have not located her husband Victor Anderson. Victor F. Anderson of Table Rock had remarried two years later to Elizabeth Pew, he was 70 years old, had been with Buffalo Bill's show in 1890's. He moved to California.

(This information was thanks to Sharla Cerra' research.)
